Selectboard

To The Citizens of Cummington

Greetings:

The year extending from July 1, 2013 to June 30, 2014 centered around school issues, building issues and a long cold winter.

Our thanks go out to the highway crew of Rob, Dean and Richie for their efforts during the winter and allowing everyone to get from here to there. Although the winter budget went substantially over \$35,000, which takes into account the change in salt prices, the crew did well in mitigating expenses. Because of the harsh cold and deep frost, potholes became a problem. Governor Patrick stepped in with a special pothole money account which entitled Cummington to spend \$30,000 fixing potholes. Half of this money went to fix actual potholes and half was used to transition one mile of West Cummington Road to be ready to blacktop.

We welcome Joseph Frost to the Highway crew replacing Rich Meyer. Because of all the potholes and things it was decided to expand the Highway Crew to four full time employees on an experimental basis to see if it is something we should try to incorporate into the budget in future years.

At the Annual Town Meeting monies were raised to refurbish the Salt Shed and Highway garage and to finish the work at the old Highway Garage.

The Board of Health did some dramatic improvements at the Transfer Station such that when all of the above is completed it will visually be a much improved area of Town.

One of the other areas of concern in town has been the rapid deterioration of Route 112 from Route 9 to the five corners. Working with our State Representative Steve Kulik, the board secured funding for its eventual repair. Our thanks to Steve Kulik for his assistance.

Lilac Avenue was another road that was in disrepair—it was milled and blacktopped using Chapter 90 funds.

Several different projects were done at the Community House. The first one involved a mutually beneficial agreement between the town and Maureen Shea and Steve Yoshen to finish off a portion of the attic in the new section of the Community House. This space will be rented to Maureen Shea for Pilates Classes. Other work done included repairing the plaster and painting some sections of the old section of the Community House done by Murray Solomon.

School issues swirled around the closing of Berkshire Trail and the fixing of the leaking roof. Preliminary estimates put the replacing of the roof costs above \$800,000.00. Because we felt the roof estimates were inflated, and the uncertainty around Berkshire Trail, three Towns including Cummington voted the roof project down.

Over the years there have been many people who have given of their time to serve the Town. Two such people who we would like to remember and thank are Almond Streeter and William (Bill) Volk, both former selectmen.

We extend our gratitude to the Assessors, Tax Collector, Treasurer, Accountant and Finance Committee for performing their duties in a spirit of cooperation, professionally and timely, thus keeping Cummington financially sound while still planning for the future.

Thanks to all the volunteers in every organization for giving up so much of your valuable time helping to make “Only One Cummington” so special. Volunteerism is what keeps this Town running so smoothly. We welcome people to “Get Involved” and help with the many tasks necessary to keep Cummington a special place.

Respectfully submitted,

Russell L. Sears III, Chairman
James A. Drawe
Monica M. Vandoloski

Article 19: Moved, seconded, and voted unanimously to accept any available funds relating to highways including, without limitations, so-called Chapter 90 type construction monies and further voted to authorize the Selectmen to enter into contracts for the expenditure of the monies received.

Article 20: Motion Carried to adopt the following resolution:

Resolution to Ban “Fracked Gas” Pipelines and to Champion Sustainable Energy

Whereas a proposed High-Pressure Pipeline carrying natural gas obtained through hydraulic fracturing may come through Cummington, or neighboring communities, bringing said fuel en route to Dracut, Massachusetts to be used for electricity generation; and

Whereas said pipeline goes against current Massachusetts commitments to renewable energies and combating global climate change; and

Whereas said pipeline would destroy unknowable amounts of forest, conservation land and farmland; and

Whereas a high-pressure gas pipeline, by its nature, carries the potential for leak, rupture or devastating explosion causing untold damage to property and lives; and

Whereas the cost of said pipeline would require Massachusetts citizens to pay a utility bill tariff as well as environmental costs not required by law for Tennessee Gas Pipeline Company L.L.C. (“TGP”, a subsidiary of Kinder Morgan Energy Partners, L.P.), making ratepayers bear financial risk for the endeavors of a private corporation; and

Whereas, we the citizens of Cummington, Massachusetts choose not to participate in such encumbrances to the life, vibrancy, economic stability, and general well being to our neighbors in New York and elsewhere, wherever hydraulic fracturing is occurring and the pressurized pipeline is running; now, therefore, be it

Resolved, that the people of Cummington, Massachusetts:

1. Hereby call on our Selectboard to stand in opposition to TGP's high pressure pipeline and not allow it within our town borders;
2. Oppose said pipeline, and any pipeline carrying natural gas obtained through hydraulic fracturing, within the borders of our Commonwealth or our Nation; and
3. Hereby instruct our state and federal legislators and executive branch officials to enact legislation and take such other actions as are necessary to disallow such projects that go against our commitments to life, the environment, our economic well being and our bodily safety, and instead, to legislate more stringent energy efficiency and further exploration of and subsidies for renewable energy sources.

Meeting dissolved at 9:11 p.m.

A true record of this meeting to the best of my knowledge.

Board of Assessors

Samuel Konieczny	2015
Richard Roberge	2016
Philip Morin	2017

ASSESSORS REPORT

For Fiscal Year 2014, the tax rate was set at \$13.09 per \$1,000 of real and personal property value. The Town of Cummington had a single tax rate that applied to residential, commercial and personal property. The average single family tax bill in Cummington went from \$2,828 (FY13) to \$3001 (FY14) and the average assessment of a single family residence went from \$229,193 (FY13) to \$229,253 (FY14).

The Board of Assessors has property record cards online through our town website at <http://www.cummington-ma.gov/Boards.php?4>. Owner information is not available online; the Assessor's office must be contacted for this information. The Board of Assessors continues to work with MainStreetGIS (which is located in Northampton); taking our Mylar tax maps and changing them over to a computer GIS (Geographic Information System) format. The GIS site can be viewed through the Assessor website. The Board of Assessors encourages people to review online information of their property and contact them with any questions.

The Board of Assessors continues to inspect properties to keep all our property data as up-to-date as possible. Personal Property will also be viewed with our regular Real Property inspections. Please contact the Board of Assessors to schedule a viewing or find out more about what Personal Property.

The office is open to the public on Monday mornings, 9:30 am - 11:30 am. In addition, the Assessors meet on the 2nd and 4th Thursday evening of each month from 6:00 pm to 8:00 pm.

Board of Health

Annual Report for FY2014

A Board of Health is responsible for attending to conditions and environments that could threaten health of local residents, mainly through implementing State regulations. Board of Health activities for Fiscal Year 2014 (July 1, 2013 through June 30, 2014) include:

Transfer Station Redesign

At the beginning of fiscal year 2014, a plan to redesign the Transfer Station went out to bid. The redesign had been approved at the May 2013 Town of Cummington's Annual Meeting, estimated to cost \$205,000.00, including fees for the engineering firm designing the project. The lowest bid was \$226,000 and most bids far exceeded the approved funds. Instead of redesigning the Transfer Station, the Board of Health is in-process of refurbishing the existing equipment and facilities, repairing the rubbish compactor and adding a compactor to handle all recyclables, with a total budget of \$100,000.

Transfer Station Permits and Bag Tags

The new bag tag system that was first implemented in 2011 (FY2012) continues. There was no raise on the cost of the annual permit, and with everyone paying for bag tags to dispose of rubbish, residents pay according to use. Adding the new compactor for recyclables reduced the restrictions on recyclable items, and (no-fee) recycling continues to increase.

Disposal Containers for Sharps

The Board of Health, concerned that improper disposal of hypodermic needles and other "sharps" presents a hazard to anyone handling trash containing these items, found a source of quart-size disposal boxes, to be offered at the Transfer Station at a nominal cost.

Town Septic Pumping Program

The Board found a local septic system contractor willing to offer a group discount for residents to have their septic system pumped, and by the end of FY2014, a sufficient number of residents signed up to participate.

West Cummington Landfill

Repairs to the former landfill site have been completed. Ongoing monitoring is conducted to assure that any further problems will be detected.

Septic Inspections

Every year the Board of Health monitors septic installations, perc tests, septic design approvals, and does sign-offs before finished systems are covered. The Board of Health also reviews all Title 5 inspections (as is necessary when property changes hands).

Bryant Free Library

Total number of patrons	1046
Total circulation of library materials	2103
Interlibrary loans	33
Acquisitions	155
Periodical subscriptions	15

Among our priorities during FY14 was additional development of the children's collection. Feedback about the redecoration of the children's room that occurred during FY13 has been very positive, and we've added many quality books in a continuing effort to make that little space an outsized experience for our youngest readers.

One of the highlights of the year for us was presenting Ashfield's Jim Vieira, one of the leading investigators of the prehistoric stoneworks of the northeast, at the Community House in February. Jim held all in attendance spellbound with his powerful presentation *Stone Builders, Mound Builders, and the Giants of Ancient New England*. This was one of Jim's final lectures before beginning filming for his History Channel series. How fortunate we were!

Our capital projects consisted of addressing long-neglected maintenance issues at the library house. Crumbling brickwork that may have resulted from a misdirected coal delivery many decades ago has finally been restored. Repairs to the substructure and decking of the porch have put that into a more stable situation, and although shoveling the porch roof during the winter will continue in order to alleviate the stress of heavy snow and ice loads, there is now a greater margin of error. With the restoration and painting of the lattice work along the front, the appearance of the structure from Berkshire Trail/Route 9 is much improved.

Looking back at some town reports from the early 1960's, I saw that over 4,000 patrons passed through the doors of the BFL. Of course, back then our choices for news and entertainment were quite limited compared to today. There were three television networks (if you could get them at all), the ubiquitous AM radio, and many homes shared telephone service on a "party line." Along with the daily newspaper, you may've had subscriptions to magazines such as *Life*, *Look*, or *National Geographic*. Home reference material was in most cases limited to a dictionary, maybe an *Information Please* almanac, and if you were really fortunate a set of encyclopedias. Almost any special homework assignment required a trip to the library, and if you really wanted to expand your

horizons the library served as the lifeline to the outside world. How different things are more than a half-century later. The old black-and-white Philco has been replaced by a myriad of high-definition color screens ranging from eye-popping immensity to eye-straining compactness. We carry the smallest of these with us at all times, allowing us instantaneous communication throughout our globe. More information than we could ever use is now at our fingertips. Like it or not, these devices have become our lifelines if not our masters. Society has changed, and with it the role of libraries. Yet while your local library may no longer be the lifeline it was for isolated Cummington families during the Kennedy administration, it does remain a lifeline... a valuable constant and a vital part of the fabric of our community.

Mark DeMaranville
Librarian

Building Inspector

Annual Report

In FY14, 62 building permits were issued, including two permits for single family homes. The estimated value of construction was \$1,752,972. The sum of \$11,043 was collected in permit fees.

On July 1, 2014 the 2012 International Energy Conservation Code went exclusively into effect for Massachusetts. This code requires a blower door test for new houses and high insulation values for all new construction. The code can be found at:

<http://publicecodes.cyberregs.com/icod/iecc/2012/index.htm>

Respectfully submitted,

James Cerone
Inspector of Buildings

Central Berkshire Regional School District

We would like to take this opportunity to congratulate the following graduates from Wahconah Regional High School from the Town of Cummington.

Samantha Camp

Austin Taylor

We wish you well in your new endeavors.

Conservation Commission Report

FY 2014

The Cummington Conservation Commission is charged with enforcing the Massachusetts Wetlands Protection Act. The law protects not only wetlands, but other resource areas, such as land open to flooding (100 year flood plains), the riverfront area (added by the rivers protection act), and land under water bodies and waterways. The Con Comm is also responsible for upholding the Westfield Rivers' Wild and Scenic designation. The main objective of all of the legislation/acts is protection of the Town's precious water resources.

The law regulates many types of work in resource areas, including vegetation removal, regrading, and construction of houses, additions, decks, driveways, and commercial or industrial buildings. If you want to work in a wetland resource area or within 100 feet of a wetland (an area called the buffer zone), contact the conservation commission before you start work.

If you are unsure whether your proposed work site is in a resource area or whether the work will alter a resource area, you can apply for a Request for Determination of Applicability. If the conservation commission determines that the work will alter a resource area, you must file an application, called a Notice of Intent (NOI), and pay an application fee.

Most of the meetings held were of a routine nature, i.e., discussion of proposed building projects (along with subsequent visits to 11 sites so as to sign off on the building permit). The Commission held 2 hearings for Requests for determination: plans for redesign of transfer station on Fairgrounds Road and the repaving of Lilac Road. The Commission also held 3 Notice of Intent Hearings: slump repair project at the closed sanitary landfill, new residence on Luther Shaw Road and wing wall project in W. Cummington at the Rt. 9 bridge.

Minutes of each meeting and hearings held are published on the Town of Cummington's website.

Respectfully submitted,

Allan Douglas

Council on Aging

July 2013 – June 2014

The Cummington Council on Aging (COA) provides services to seniors and their families. Funding for projects come from, the Massachusetts Office of Elder Affairs, the town of Cummington and Highland Valley Elder Services.

During the 2013-2014 year, the potluck luncheon, which included blood pressure screenings by HOPE nurse Mary Kane, and special presentations by speakers and performers, was held monthly. The average attendance was 37 persons. The Annual Picnic occurred in July and included recognition of the Board of Directors for another year of service to COA and the senior community.

Sue Forgea is leading the Osteoporosis exercise program for one hour a week with an average of 7 persons in attendance. Movement, balance and strengthening muscles makes this class healthy for both men and women elders. There is a core group that attends this class, but they are always happy to welcome new faces.

The Neighbor to Neighbor Ride Program, funded by HVES continues. A small reimbursement is provided to neighbors who transport senior neighbors to medical appointments or grocery shopping. While seniors are encouraged to use the FRTA van for their transportation, the need for the use of one on one driver continues in our Hilltown community. One on one drivers provide companionship for the elder and reduces the amount of isolation the senior might otherwise have.

The new format of the monthly newsletter, which is mailed or emailed to Cummington seniors 60 and above, continues to receive acknowledgement and kudos for a job well done.

We continue to foster a connection with BTES through shared activities. Anne Parsons, Jim Martin and Don Morton served the ice cream sandwiches we brought as part of the Field Day activities... folks of many talents and a willingness to serve.

The Council on Aging is most grateful to the town for office space in the Community House and monthly use of the Conference Room and Kitchen. We appreciated the many town services that enable us to continue our work.

Thank you for supporting your Council on Aging.

Board of Directors: July 2013 – June 2014

Board of Directors

Cummington Cultural Council

Annual Report December 1, 2014

Membership

The membership of the Cummington Cultural Council, the local arm of the Massachusetts Cultural Council, a state agency, has undergone a significant change during the year. Jillian Hanson moved away and therefore resigned. We welcomed three new members in September: Paula Gottlieb, Kim Wachtel, and Judith Bowerman. Kathryn Jensen has continued as Chair. Membership terms, as appointed by the Town are as follows.

	Term end
June Ferrin	2016
Jillian Hanson	2014
Kathryn Jensen	2017
Andrew Liebenow	2016
Eric Smith	2015
Kim Wachtel	2017
Paula Gottlieb	2017
Judith Bowerman	2017

COUNCIL ACTIVITIES - July 1, 2013 through July 30, 2014

The activities of the Cummington Cultural Council are chiefly to administer state-granted funds and to manage the gallery aspect of the rooms at the rear of the Community House.

GRANTS

Each year the Cultural Council receives funds from the state to grant for arts, humanities and science projects. The state grant for FY 2014 was \$3870, the same amount granted the previous year. We received 36 applications by the October 15th deadline, and awarded funds to 24 applicants. As has been the Council's habit, there were several programs specific to elementary school children and to senior citizens. Other awards included some annual events like Bryant Day, others unique projects.

GALLERY

The gallery has been used much less than in previous years. One show that was a big hit was a project on self-portraiture by pre-school children, led by Amy Grallert. As a council, we are considering the future use of the gallery. As a council, we plan to submit a grant proposal ourselves in order to purchase materials for protecting and mounting work. The idea is for the gallery to be a resource to community groups or beginning artists without the need to frame two-dimensional work. The first event to benefit from these materials will be a community-wide show of wedding portraits.

Respectfully submitted,

Kathryn L. Jensen, Chair
Cummington Cultural Council

Finance Committee

July 1, 2013 - June 30, 2014

Following are the transfers made from the reserve fund appropriation of \$6,000.

Public Safety Complex	\$ 2,051.42
Tax Title	2,508.00
Medicare	288.00
Public Safety Complex	340.00
Returned to Free Cash	\$ 812.58

Currently Cummington continues to enjoy a fairly stable tax rate. This however could change with continued uncertainty in State aid and changes within the Central Berkshire School District. Grants obtained by Dept. heads certainly have a positive impact on controlling the bottom line thus saving the taxpayers additional burden.

We welcome Gerry Wilcox to the committee and look forward to another productive year.

Respectfully submitted,

Dennis Forgea, Chair

Gerry Wilcox

Fire Association

July 1, 2013 – June 30, 2014

Over the past year the Cummington Fire Association was under the leadership of President Steven Emerson, Treasurer Dennis Forgea and Clerk Bernard L. Forgea.

Cummington Fire Association continues to support Highland Ambulance, our Regional service ambulance provider. It has now been since October 2004 when Cummington formally ended providing service for Plainfield and Cummington. Highland has more than filled the void. They continue to provide excellent service and continue to improve their equipment. Still, in the past year Cummington personnel responded to 45 medical calls, most of which ended up being transported by Highland. Even though Highland now provides our ambulance service our local First Responders must still maintain their certifications in CPR (Cardio Pulmonary Resuscitation), Defibrillation and First Aid skills. Currently Cummington has six EMTs on the squad and there is always room for more.

As well, over the past year we have recorded 16 calls for just the bucket truck (one less than last year by the way) which is now a major mission for the Association. While mostly used on chimney fires, this piece of equipment is used for many issues. We continue to use this equipment to fix, repair, install wiring and lighting for our car parking efforts at the fair. Once in a while we are called to assist with clearing ice dams from roofs or lifting personnel aloft so they are able to repair their roofs. We do manage to keep the vehicle busy. Over the past year we had to use this piece of equipment at several structure fires. It is particularly valuable when we have to perform “roof” or, gable end work. Instead of working from ladders, which most people are not that comfortable being on in the first place, we stand inside the bucket and most of the time we are able to accomplish the need before us. Last year we responded to Plainfield to the intersection of West Street and Route 116 to a structure fire. We utilized the bucket to open the gable end of the structure so we could gain better, and more direct, access to the difficult, stubborn, fire. Once we opened this structure and got a foam line into the attic space the fire was extinguished. The owner was able to salvage much of his operation because of the great work by Plainfield and their mutual aid partners.

We finally completed our radio system upgrade in January of 2013. We continue to enjoy the success of this system and the many benefits it brings to our communications. What a huge difference, for the better, this new system of radio towers and micro wave links provides! It was a long three plus years but worth it in the end. More detail of this system and the components is contained in last year’s report in this space.

Another year and another successful fair behind us. We wish to say Thank you to Chief Sue Labrie for her support running the SAFE House at the fair. Chief LaBrie runs the SAFE house for us during the fair and through this great teaching tool she comes in contact with dozens of individuals, young and old, who learn the basics of Fire prevention and Safety.

A couple of years ago we noted here the great trailer Rob Dextraze and the highway crew put together for us. Well, we had no idea just how important and useful that unit would become. We have been called to provide different pieces of equipment for various calls i.e., searches, rescues, fire fighting, etc. and all we have to do is unload whatever it is we have on the trailer and reload with the correct equipment and be off. During the summer months we have ATV's and wildland firefighting equipment loaded. Once we receive some snow, we unload this equipment and reload with our winter ATV and medical rescue body. This vehicle has a set of tracks so in the winter it is the preferred equipment to have loaded. Rob and crew designed the trailer for rapid loading and unloading. Great job!!

As most realize, our major fund raising is parking cars at the local fair. Well, without the graciousness of Barbara Goldsmith and Sarah and Rich Fournier (Warner Farm) who allow us to use their land for parking we would not have nearly the success we enjoy. Both of these parties generously donate their land to the Cummington Fire Association so we can control the movement of vehicles and general traffic around the fair and in the process make a few dollars for Public Safety. We would like to remind everyone that all of the money we raise during this event goes directly into Public Safety for the area. We may purchase some necessary equipment, pay registration and insurance on vehicles (bucket truck and Rescue), work to complete the much needed kitchen in the Public Safety Complex, make needed modifications to the Public Safety building (built a mezzanine all around the apparatus floor for storage), etc. None of the money raised goes toward paying anyone. To everyone who supports us, THANK YOU!!!

As we continue to look for ways to support the Town of Cummington we are also mindful of the individuals who have come forward to assist us with many of our projects. Roger Gunn is one such person. Roger has provided us with busses to transport people during evacuations (Irene), ice storms, and flooded parking lots at the fair. We fully engaged his expertise when we undertook a project we have wanted to do since we first moved into the building. That project is the building of the mezzanine around much of the inside of the Fire and Rescue bays for the storage of valuable equipment and supplies. Some of the equipment is seasonal as are some of the supplies. Instead of having the "out of season" material and supplies strewn around the bays on the floor we plan

to have everything neatly stacked and inventoried on the proposed mezzanine. That project is alive, ongoing and well. We also want to say **THANK YOU** to Levi Mike Robbins, and again to Delbert Robbins, for their generous donation of time and equipment helping us with this project. We will not finish this project this year but will keep you informed of any results.

Another individual to be recognized for tremendous contributions to this Association and the the Town of Cummington is Brian Anderson. This past year we said good- by to our extremely long time Fire Association President, Brian Anderson. Brian replaced Bob Pratt in this leadership role when Bob retire decades ago. Brian was with us, guiding the way, through the many aspects of the many projects we undertook over the years. He was the steadying hand and voice of reason all through the arduous task of building the Public Safety Complex, from finding a suitable site to the certificate of substantial completion so we could occupy the structure, a period of nearly fifteen years. He was there when the decision was made to end ambulance service in Cummington and work to form a regional service which, as most know, is Highland Ambulance. Brian had served as an EMT, as well as a Firefighter all during his career with Cummington. When we expanded the car parking at the fair, Brian was right there with us, every step of the way. We could go on and on but Brians list of achievements and accomplishments would take several more pages. As much as it seems as if all of these projects were accomplished with a snap of the fingers, just the opposite is factually true. He spent thousands of hours training as a Firefighter/EMT. He spent countless thousands more responding to calls and standing duty with the Cummington Fire and Ambulance service. It was decided to say good-bye to Brian in this report rather than the Fire report because Brian was such an integral part of the Fire Association fabric, over such a long time. Brian, to say you are missed is the greatest understatement ever uttered. Brian and his wife Diane finally sold their beautiful home, which they spent countless hours working on and improving, and moved to North Carolina to be closer to their children. Brian was replaced as President of the Cummington Fire Association by Steven Emerson, who is no stranger to work or, to the Association, with nearly 40 years of service as an Asst. Fire Chief and EMT. Best wishes and good luck to both!!

The members of the Association want to take this opportunity to say a heartfelt **THANK YOU** to all who assist us all year long. **THANK YOU** to those who assist with the raffle at the fair, to those who swelter and thirst in the sun parking cars. To those who so generously donate their products and provisions as prizes in our raffle. We hesitate to identify individuals for fear of missing anyone so have take the broader approach to say a huge **THANK YOU** to all who give so unselfishly of their time and themselves to help us.

We would be remiss if we did not say a final **THANK YOU** to Northeast Utilities and Massachusetts Emergency management Agency for their generous support by loaning us the portable radios and equipment we use each year to control and coordinate the traffic and parking all during the fair. If we didn't have such support we would never be able to do all that we do! Finally, a tremendous thank you to all of the Mutual Aid partners who come to aid us during the Fair. Without these many towns Fire and EMS personnel willing to come and volunteer their time to provide for the Public Safety at this event, things could be very different in an ud attractive way.

THANK YOU to everyone who supports and assists us all year long!

Members of the Cummington
Fire Association, Inc.

Fire Department

July 1, 2013 – June 30, 2014

During the past year the Fire Department was under the leadership of Asst. Chief Dennis Forgea, 2nd Asst. Chief Steve Emerson, and Second Lt Robert Dextraze.

The Fire Department responded to the following calls during this period.

Box Alarms (structure fires)	0
Box Alarms Mutual Aid	4
Chimney Fires	2
Propane gas tanks floating	0
Smoke and Alarms Sounding	6
Motor Vehicle Crashes	5
Trees on Wires	1
In Service Assignments	10
Transformer fire	0
Medical Calls	45
Lightning strike	0
Aerial Lift Calls (recorded)	16
Total	89

We experienced a slight decrease in calls this year primarily due to a slight increase in medical calls. Certainly our most serious call in Cummington was the vehicle crash of December 20th that claimed the life of the driver of the car involved. We received the alarm late in the daylight hours on the 20th of December and crews from Cummington and Plainfield worked tirelessly to free the trapped driver of the car that had collided with a tractor trailer. With Paramedics on the scene, working on the victim all the while the extrication crews were performing their work, a good outcome was simply not to be. The trailer was a fully loaded tanker with some 10,000 gallons of diesel fuel. Fortunately not a drop of the cargo was spilled.

Cummington was called to assist at several structure fires, one on Rt. 116 in Plainfield and one on Thayer Hill Road in Worthington. The fire in Worthington was a barn that was home to many rescue animals being cared for by the Town's Animal Control officer. The structure was a total loss. The Animal Control office, and friends, made alternate arrangements for housing the animals. No animals were injured or, lost, in this fire. This, in and of itself, was a major accomplishment.

The other incidents that need to be noted were two extremely cold mutual aid calls made by the department. One was to Ashfield for a structure fire on January 4th and the second was to Windsor on January 22. At the Ashfield incident our personnel were requested to shuttle water with our vacuum tanker. As a precaution when we left the station we deployed Asst. Chief Forgea's idea to also send a heater unit along with our assignment because of the cold. Once on scene he suggested we "wrap" the bottom of the piece of stationary apparatus and stick one of our large heater hoses directly under the truck to see if we could prevent freezing temperatures from damaging our valuable and very expensive equipment. The temperature at the Lake House in Ashfield where the water supply site was located was measured at -20 F. The heater managed to keep the water supply truck from freezing up. Most every other piece of apparatus there experienced some degree of damage FROM FREEZING. One community had over \$10,000 worth of damage to their new truck.

The second incident was on January 22 in Windsor. We were called to setup a water supply in the pond next to the Windsor station. For those who have driven through Windsor on Route 9 you know this location to be "on top of the world" with nothing to hide behind from the wind blowing straight off of Mt. Greylock! Once again the Firefighters from Cummington deployed the Engine and a heater to Windsor. In fact, they went with two heaters, it works so well the first time. One heater went to the water site and one went to the scene to keep the attack truck from freezing up. In both instances a Firefighter was assigned to oversee each heater to insure it came home at the end of the day. The temperature on this call was a balmy 10 below zero!!!! Fortunately Chief Forgea's idea on how to use these military surplus heaters turned out to be golden for Cummington and the other communities.

Currently the Cummington Fire Dept. is operating with an entirely new cold weather operating procedure. This procedure has our heaters deployed on any such call along with a host of other ideas the Firefighters came up with for cold weather operating. Such as, draining pumps then flooding them with RV antifreeze to displace any hidden water and then draining out the antifreeze, keeping it for future use and leaving the pumps drained. Another idea which has been incorporated into the operational plan is the use of hand held spray bottles of RV antifreeze to spray on couplings so they don't freeze closed and can't be disconnected. The last, so far, idea is the inclusion of a small hand held torch on each truck for unfreezing those stubborn couplings that the RV antifreeze didn't protect. So far these great home grown ideas have saved the Town from thousands of dollars of cost from freezing damage.

This past year we saw the retirement of long time **Fire Lt. Delbert Robbins**. After **serving over 30 years** as a volunteer to the Town of Cummington, Lt. Robbins decided to retire. We wish him well and thank him for all he contributed

to the Town and the Emergency services he served. Delbert was an important part of the Department and spent untold hours serving on the vehicle selection committees we had over several years. We spent some 18 months developing the specifications for one truck alone. Delbert never missed a meeting and was the first one to drive the truck when we went to Nebraska to make sure everything was all set with the truck. Many **THANK YOUS to you Delbert. Words are not adequate to say Thank you enough for the debt of gratitude the Department and the Town owes you.**

Also, we experienced a second retirement this year. Firefighter/EMT Brian Anderson finally called it a day and he and his wife Diane moved to the Carolinas. Brian's retirement is covered in the companion Fire Association report.

An unusual call we experienced was a call for a motorcycle accident on "King's Corner." Upon arrival of apparatus and personnel it was discovered that the victim had been thrown over the guard rail and was located down by the river at the bottom of a very steep bank. The Paramedics climbed down to the victim and as they administered aid the rest of the responders were attempting to figure out a method of lifting the victim and carrying the individual up the very steep, jagged, incline. At some point someone asked if we couldn't extend a ladder down over the incline, extend it and use it like a miniature railroad track so the litter the victim was on could be hauled up the bank. Great idea but, no way to position enough personnel to do the pulling. Another participant suggested we use the winch line on the tip of the bucket truck boom and winch the litter up with that. This exactly what we did. This recovery effort is a tribute to everyone who participated. There was a great response from the public who stopped to lend a hand. The Fire personnel on the scene were just too few to accomplish all of the tasks that needed completing. Thank you to everyone who assisted.

Last year we reported on the arrival of our new Vacuum Tanker which utilizes technology brand new to us. Since that report we have had many opportunities to use the vehicle in drills, actual fire calls and, in demonstrations for apparatus shows. This unit enables us to gain access to water supplies that otherwise are unattainable by conventional apparatus. We continue to train and discover new methods of applying the technology afforded by this vehicle.

Last year was the first year we had an outside vendor test our hose and ladders. We did not have any hose fail the testing but, we do have some lengths that must be replaced simply due to age. Any hose constructed in 1987 or, before, must be taken out of service. We also had two ladders fail the testing so they will be included in this year's budget request.

Also, we experience an expensive repair to our E-2 (the truck with the mural). Three years ago the air compressor unit for making foam came apart and destroyed itself. Examination showed the unit was not assembled properly.

After many hours on the telephone and heavy discussions with the manufacturer, we finally received replacement parts for the pump but still had to pay for the mechanic at the dealership to install the new parts. Well, this past year the very same thing happened again! However, this time we contacted a different repair shop and, although again, very expensive, the work was done correctly. This is reported here as a way to inform the tax payers in Cummington that this repair consumed a third of our operating budget (\$15,000) for the year. We are working very conservatively, while not compromising the Safety of our personnel, to try to make up this impact on our budget.

We continue our search and recruitment for new members to the Fire service in Cummington. Admittedly this isn't for everyone and everyone isn't for this type of work. For those who do come on the department the rewards of serving the community and helping that in need by far outweigh the negatives. Please give some serious consideration to assisting your community. To this end we have three new, and totally dedicated, volunteers on the department. Please help us in welcoming Adam Dragon, Sarah Fournier-Scanlon and Austin Savoie. All three came on board just at the end of this fiscal year and, all three have already completed the County Basic Six training school. So, if you see any, or all three, please say "Hi and Thank You for serving."

In closing, the members and Friends of the Cummington Fire Department want to say thank you to the residents of the Town for your support and understanding of all we do here in the Fire Department. Your support and encouragement enable us to continue providing the services we do and, enable us to perform our duties for the Town.

Thank you.

Bernard L. Forgea

Respectfully submitted,

Bernard L. Forgea - Chief

Highway Department

2013-2014

The Highway Department received the road side mower through WMECO'S brush cutting program. The mower (John Deere) arrived in February and will be housed in Cummington but shared with four other towns—Ashfield, Buckland, Conway and Plainfield). At the end of five years, the mower will be the property of the Cummington Highway Department.

A backhoe and grader were obtained through the Military Surplus program and have been a benefit to the Department. The last grader broke and was not worthy of repair.

Lilac Avenue was paved with the money we received from Chapter 90. The road shoulder was graveled, culverts were replaced as needed and the ditches were cleaned.

As usual, brush was cut, paved roads were patched and dirt roads were graded. Ditches were cleaned with the backhoe and guardrails were trimmed.

I and the Department appreciate the support of the voters of the Town of Cummington.

Please contact the Highway Department directly with any issues at 634-8818.

Respectfully submitted,

Robert Dextraze, Jr.
Highway Superintendent

Historical Commission

July 2013 – June 2014

This summer season there were 121 (plus 15 - Leslie Ferrin and ceramic group) visitors to the Kingman Tavern Museum with presentations by Lisa Westervelt, Traveling Hooves, Sharon Cunningham, Josh Wachtel, Ron Woodland and the shape-note singers thanks to Pat Keith.

Becky Kravetz project *Then and Now* included quilts created by students at the Berkshire Trail Elementary School based on information from a walking lecture down Main Street and a visit to the Kingman Tavern Museum with members of the Historical Commission.

The painting of Kingman Tavern has been completed.

Removal and clean-up of the barn at the Parsonage has been done by Pete Marcoux, and the debris and dumpster removed. Some items in barn were salvaged. A clean-out of the Parsonage by Commission members was done in October with further items to be moved before renovations begin.

The Commission has called for bids on evaluation and structural stabilization of the Parsonage at the northeast corner, to keep out rodents and water, and to dismantle chimney and close in with appropriate materials. Larry Slezak interviewed various contactors, meeting them at the Parsonage to evaluate the project.

The CHC discussed the design of the handicapped bathroom for the Parsonage with Sean McWilliams. His plans were approved. Sean provided the Commissions with several copies of the plans plus an electronic file that prospective contractors could print out. Sean also did extensive research on the house documenting and measuring which is included in the plans.

The scope of the Parsonage Project is expanding to meet Massachusetts regulations and the needs of the Commission. Plans for the Parsonage include creating a climate controlled space for records and storage as well as exhibit space, and handicapped access is being evaluated. The ground floor will be open to the public. Quigley Builders of Ashfield is interested in the Parsonage project and will begin investigations into the structural integrity of the structure, plans for heating and new plumbing.

There were no applicants for the William W Streeter History Scholarship which is awarded to two of best essays on an historical aspect of Cummington. Please contact any member of the Commission if you know of anyone who might wish to apply.

Stephanie Pasternak has resigned as commissioner and is now a Friend of the Commission. Thank you for your years of service on the Commission.

Thanks to Carla for being a Chairperson for several years, to Pat for taking over that role, to Larry Slezak and Scott Keith for all the work on the Parsonage, to Jessy McMahon and Stephen Buckley for joining us and rounding out the Commission. Jessy has created a Facebook page for the Kingman Tavern. Stephen Buckley is working with Larry Slezak to maintain the Museum's buildings.

Thanks to all of those who have donated items and to those who volunteered this summer. A special thanks goes to Don Thayer for his gifts to the Museum.

The Kingman Tavern Museum is open on Saturdays in July and August from 2:00 PM to 5:00 PM. If you have never visited before, please take time this coming summer. There are many interesting items from Cummington's past and there's bound to be something going on outside or on the porch. Volunteers are always needed as well as guides. Special tours may be arranged by appointment.

Planning Board

The Planning Board had one major piece of work accomplished in FY14. With the help of Larry Smith of the Pioneer Valley Planning Commission (PVPC), we have a recodified draft of Cummington's Zoning By-laws. This new version addresses many issues such as a consistent format between sections, the creation of a table of contents and glossary, and the inclusion of the missing Water Supply Protection District map. Thank you to Monica Vandolowski for rediscovering this map, originally created by PVPC in the early 1990's. PVPC had lost their copy most likely when their former office in West Springfield was damaged. The Planning Board will present the draft version of the By-laws to residents, make any necessary revisions, and present a version for adoption.

For regular business, it was a typical year. We approved three ANRs (plans that create new parcels of land). We also moved to a more infrequent meeting schedule, still meeting on the second and fourth Wednesdays of the month, but only when needed.

Finally, FY14 brought about some sadness for the Planning Board. After many years of dedicated service to the Board, Judy Moore ended her position as secretary. She has been the glue that has held our board together and she will be dearly missed. We greatly thank her for her expertise, commitment, thoughtfulness, and eggnog!

Police Department

July 1, 2013 – June 30, 2014

Department Members: Chief Dennis Forgea, Sergeant Michael Perkins, Patrol Officer Sharon Cunningham and Special Officer Robert Spiess.

I would like to begin this year's report by thanking the voters for supporting the purchase of a new cruiser at town meeting. The department has ordered a 2015 Chevrolet through Mirak Chevrolet in Arlington, MA. Delivery is expected later in 2014.

The Department continues to focus on providing a high level of professional service in order to meet the growing needs and demands.

We continue to partner with the Massachusetts State Police, Cummington Fire/Rescue, Highland EMS and the Central Berkshire Regional School District Emergency Planning Committee conducting various school safety initiatives at Berkshire Trail Elementary School.

This year Fire Chief Bernie Forgea has assisted the department in securing new radio equipment through the Western Regional Homeland Security Advisory Council. This equipment greatly advances the departments emergency communications capability. **We are *extremely* appreciative for Bernie's efforts!!!**

Thank you to our public safety partner, Cummington Fire/Rescue for their continued support in promoting public safety for the residents.

As a reminder, please DIAL 911 to report all emergencies both from landline and mobile devices! The department's business line (413.634.0056) can be utilized for other routine business. Please checkout the department's website www.cummingtonpolice.com. There are forms available for downloading, reports and other department news. In addition you can follow @CummingtonPD on Twitter!

Department Weekly Office Hours are Saturday Mornings from 8am - 10am. Please Stop In!

Motor Vehicle Crashes:	37	Motor Veh. Stops/Complaints:	83
Total Calls for Service: 622			

Respectfully submitted,
Dennis W. Forgea - Chief

Cummington Recreation Report

July 1, 2013 to June 30, 2014

This year the Recreation area, pavilion and playground equipment fared pretty good through the off season. The building on the other hand was vandalized again, this time sticking stick pieces in the door locks. We salvaged all except the Men's room. We replaced the lock and now have a separate key located in the kitchen. A couple of tables were broken and repairs to them were made by our handy man Dennis W. Forgea.

Dennis opens and closes the building for the seasons, along with minor repairs and putting up the Tennis net. We very much appreciate his services.

Many rented the recreation area for their special events. A couple of issues came up with the clean up and removal of vehicles after their events. We also received calls that the music was too loud. This has prompted us to alter the rules for renting. We will have a revised agreement ready for next season. You should be able to download the new agreement on the Town's web site. The donation will also increase slightly. We hope this will not discourage you from using the recreation area for your special event.

We had a successful Junior Olympics in Worthington this year. Thirty students from Cummington participated. Nathan Loux is stepping down as our representative, and we have asked Jennifer O'Neil and she has agreed to take over. We thank Nathan for his many years of representing our town. This is an important event each year for the children of our town to attend. Not only does it represent Cummington but the fact that Stanley Svoboda started the Junior Olympics. His dream was to have all children participate and to give them the feeling of being an athlete. This event has continued for 35 years.

The Rag Shag Parade seems to be a popular event, marching down Main St. following the fire truck. The Police also stop traffic on Main Street for this event. A thank you to both the Fire Department and the Police Department for their help.

Santa came to the Gazebo so all could greet him and give their lists to him. All children received an ornament from the tree and we served hot chocolate and munchkins. Santa was brought to the Gazebo by the Fire Truck and returned by Fire Truck. A Police presence was appreciated. Thank you again to both departments.

The pump for the bathrooms/septic failed to perform this year, so our largest expense was digging up and replacing the pump. Thank you P & M Marcoux for your expert parts and repairs.

Maintaining the ballfield for play and tournaments has been expensive, but if we want tournaments and a ballfield for play we need to take care of the field. It often needs grading, smoothing and weed removal. Volunteers are hard to come by, so we need to pay individuals to do the work.

We are still dealing with the after effects of the Storm Irene. Mainly the fences. I will update everyone in next years report.

If you wish to rent the Recreation area please contact Geraldine Wilcox at 634-2136. She schedules the events. Contracts will be available on the town's web site. Mail all donations to the treasurer Donna Forgea at 6 Porter Hill Road, Cummington, Ma. 01026.

Respectfully submitted,

Your Recreation Committee,

Geraldine Wilcox, Chair
Donna L. Forgea, Treasurer
Amy Grallert, Secretary
Andrew Liebenow
Peter Feitner
Susan Ryan

Central Hampshire Veterans' Services

The mission of the Central Hampshire Veterans' Services District is to aid, support, and advocate for the veterans and their families within our communities. A secondary mission is to collaborate with the Veterans Council in support of veteran holiday event planning. Currently our district serves the communities of Northampton, Amherst, Pelham, Hadley, Williamsburg, Chesterfield, Goshen, Cummington, Worthington, and Middlefield.

Central Hampshire Veterans' Services has 3 full-time staff members who work together to ensure that all veterans within our district receive the best services available. Steve Connor has been the Director for the past 10 years. Rebecca Twinning is another Veterans Service Officer based out of our main office in Northampton who has been working with Steve for the past 8 years. Their combined experience and support has been vital in speeding up my learning curve as your Veterans' Agent over the past year.

I view my position as much more than simply reviewing who is eligible or not eligible for veteran's benefits, programs, and services. Beyond veteran specific benefits there are a lot of other federal, state, and non-profit resources that I have used in support of helping veterans overcome their hardships. My goal is to use appropriate resources to help others manage a sustainable living situation. Sometimes it's as easy as contacting a friendly neighbor or volunteer who is willing to help an elder with basic household chores. In other cases it makes more sense to file a VA claim for Aid and Attendance. No matter what the issue is, there is no problem that is too big or too small to bring to my attention.

In Cummington, over the past year I have been able to help several veterans in various ways. For example, I have helped seek aid via the VA and The Holyoke Soldiers home for 4 local veterans. Also, I have been able to retrieve service records for 6 local veterans. Also, I have had 2 speaking engagements. In many cases I have been successful in referring local veterans to other agencies to address their needs.

My objective over the next year for our "Hampshire Hill Towns" is to identify more community residents who are willing to volunteer to help their neighbors if or when there is a need. I would also like to have more veterans appointed to the Hampshire Hill Town Veterans Council. Once we have more members on our council we will be able to utilize their talents to become more active in our veteran communities. We would also like to support our local veterans clubs in their efforts in making a positive impact in our towns.

In closing, community outreach is paramount to accomplishing our mission at Central Hampshire Veterans' Services. If you would like me to attend a community event, please send an invitation email to: vetadmin@northamptonma.gov. I will do my best to attend all events for which I receive an invitation as my schedule permits. You may also mail an invitation to:

Central Hampshire Veterans' Services
Memorial Hall
240 Main Street, Room 4
Northampton, MA 01060

For any questions or to schedule an appointment with me please call 413-587-1299. As always feel free to stop by and see me during my regularly scheduled hill town hours.

Best regards,

Tom Geryk
Veterans' Agent

Vocational School Committee

The Vocational School Committee would like to thank the Cummington voters for their continued support of town funding for tuition and transportation of our students to Smith Vocational High School.

We continue to have a successful relationship with our long time bus contractor, Stevensville Corp.(Roger Gunn).

We sent 11 students to Smith Vocational High School during fiscal year 2014.

Congratulations to the graduates:

Cameren Granger
Mikayla Howes
Trevor McCarthy

Respectfully submitted,

Lori Carver, Chairman
Sharon Cunningham
Theodore Lynds

Water Commissioners Report

July 1, 2013 To June 30, 2014

This year we have lost a long time Water Commissioner, Delbert Robbins resigned as a Commissioner. He served many years and he will be missed terribly. He was always there to help in any way possible. We can not thank him enough for his contributions, as they are just too many to list. Clever, hands on, always responding, concerned, knowledgeable are just a few that come to mind. We are better Commissioners for having him serve as long as he did. Thank you Delbert!

The Commissioners recognize that the Water Operator is a very essential part of our systems and we could not operate without one. The daily operation of checking both systems, the long and complicated paper work and reports to the Department of Environmental Protection, the classes and licenses to keep us all compliant and the many times of resetting the pumps after a lightning storm are so important in maintaining these two systems. The Operator also trudges through the woods to get a water sample from the Fanny Rogers Spring all year and in all kinds of weather. We appreciate your services Dennis W. Forgea! Thank you.

We are desperately in need of Grants to update these systems, from Telemetry to adding the Fanny Rogers Spring. The mechanisms for adding the chemical to the water is also outdated. This will probably come as a crisis management situation. We can still hope for something to come to us in a form of a grant or help from the state/government.

We are on a schedule of increasing the rents in small steps. We must maintain the increased costs of services to the system. RE: Electricity, Propane gas, chemicals, testing, classes, dues and replacement parts. Your cooperation is very much appreciated.

Repairs were made to the fence in W. Cummington, the injection system in Cummington, and a drum pump for W. Cummington. Minimal to say the least!

Land owned by Cummington in Plainfield for the storage tank in W. Cummington known as the old open water source has finally been adjusted as in lieu of taxes, which saves us the usual tax bill paid to Plainfield. We will now pay a much lower bill. This is land we no longer use.

A great big Thank You to our Treasurer/Tax Collector Susan Warriner for her part in collecting all rents due the Town of Cummington.

Respectfully submitted,
Your Water Commissioners,

Donna L. Forgea, Chair
Danny Emerson, Member

Tomasz Jaracz, Member
Dennis W. Forgea, Water Operator

Zoning Board of Appeals

July 1, 2013 - June 30, 2014

During FY 2014 there were three public hearings held by the ZBA.

The first was held on October 10, 2013 and was in regard to an application from The Hillside Agricultural Society asking the ZBA "...to reach a finding; issue a special permit; and/or variance..." with regard to the setback requirement of the Dimensional Regulation Schedule, § 1, "...to allow for the rebuilding or build anew, three ticket booths located at Howes' lot, the Main gate, and the Walk-in gate." All of which are located on the Cummington Fairgrounds.

"In the instance of the booth located at Howes' lot, the Board finds that this is a pre-existing non-conforming structure and that the proposed rebuilding is not substantially more detrimental than the existing structure and therefore is allowed."

"In the instance of the Walk-in Gate, given these facts: its ongoing historic use in this location; the present location is safe and convenient for both staff and fairgoers; the presence of the historic racetrack prevents the set-back requirement from being met; although the Fair is not a "public" entity it does act as one and contributes substantially to quality of Hilltown life; and, that this is an extremely unique situation, the Board finds that this is a pre-existing use and that the construction of a booth in this location is an enhancement over the existing situation and therefore is allowed."

Lastly, with regard to the Main Gate, the booth is to be removed and replaced by a new booth of similar size. It is located well out of the set-back area and no action is necessary by the ZBA.

The second and third hearings were both held on June 3, 2014.

Mariam Massaro petitioned the board to allow a special permit for a "...performing arts lodge for a music, creative arts and theater venue for all ages" at the property she owns located at 21 West Main Street.

The board granted "...a special permit to Mariam Massaro and Amanda Pollock to operate a performance venue for music, creative arts, and theater presentations, at 21 West Main Street, Cummington, MA, to be known as Singing Bridge Performing Arts Lodge. The following conditions, in addition to the Zoning By-law shall apply:

1. No liquor license shall be held or exercised.
2. At outdoor events the amplified portion shall cease at 10:00 PM on Fridays and Saturdays; and at 9:00 PM all other nights.

3. The venue shall close at 12 AM (midnight).
4. These conditions will be reviewed at a ZBA meeting to be held in July 2015 and may then be amended, modified, and/or extended at that time.”

The last hearing of the year was for Michael Holden as applicant seeking a “finding, special permit and/or variance to build a home and barn on property he owns at 127 Dodwells Road”.

“The Board finds that the proposed alterations to the existing lot and structure located at 127 Dodwells Road, Cummington are not substantially more detrimental than the existing nonconforming structure/use, with the following conditions:

1. With regard to the proposed alteration of the existing structure (building a barn on the existing foundation), the new barn must meet the required setback on the west side (the sideline of the foundation that is presently only 7’ from the property line of 1 Lyman Flat).
2. New permanent structures or buildings are required to meet the setback requirements on all sides. (Unless a future variance is applied for and granted.)
3. The continued use of the slab to park vehicles, moveable sheds, equipment, etc. is permitted.”

For a true and complete record of all of the proceedings listed above please contact the Town Clerk.

There currently is one vacancy for a second Associate Member. Typically the board only convenes when there is an application before us; there are no regularly scheduled meetings. Anyone who is interested in joining the ZBA should contact either Carla or Michael for more information. Your objectivity and analytical skills would be two important qualities that you should be able to bring to the board.

The members of the Cummington Zoning Board of Appeals are:

Carla Ness, Chair

Kenneth Howes, Member

Ernest Strong, Member

Michael Holden, Clerk

Bruce Mouglin, Member

Deborah Emerson, Associate Member

Respectfully submitted,

Carla Ness, Chair

Annual Report of Highland Ambulance EMS

Operations. Highland Ambulance is the primary ambulance service provider for the towns of Ashfield, Chesterfield, Cummington, Goshen, Plainfield and Williamsburg. Highland also provides primary back-up service in the town of Worthington in support of Hilltown Ambulance of Huntington. Paramedics are on duty at Highland's station in Goshen from 6 AM until midnight seven days a week. During the midnight to 6 AM time period, Highland EMT's are assisted by Paramedics from other ambulance companies when the service of a Paramedic is required. Highland's active roster consists of 37 members including 15 Paramedics and 22 EMTs.

Emergency Responses. During 2014 Highland responded to 519 emergency calls. These are broken down by Town as follows:

Ashfield	105	Chesterfield	59	Cummington	55	Worthington	18
Goshen	72	Plainfield	37	Williamsburg	158	Other	15

Out of these responses, 320 required advanced life support services of a paramedic.

Training. The following special training events were held:

- First Responder classes were held for Ashfield, Plainfield and Williamsburg Police and Fire personnel.
- Attended an Ebola response review at Cooley Dickinson Hospital.
- Provided the new National Certification class for all area EMTs.
- Four EMTs have completed their Paramedic training.

Community Involvement. Highland provided support to our communities including:

- Providing Ambulance coverage for Community events including the Chesterfield 4th of July Parade, the Cummington Fair and the Ashfield Fall Festival.
- Attending Safety Committee Meetings at Sanderson Academy in Ashfield.
- A Flu shot clinic for area first responders and EMTs.
- Participating in a lock down drill at Dunphy School in Williamsburg.
- Providing a CPR and First Aid class for Williamsburg residents.

Cash On Hand June 30, 2014

Hilltown Community Development Corporation

FY 2014

The Hilltown Community Development Corporation (Hilltown CDC) was created in 1981 with a mission to *“improve the quality of life for hilltown residents by addressing economic, housing, educational, social and community needs while preserving the rural character of the area.”* Its core service area includes the ten towns of Chester, Chesterfield, Cummington, Goshen, Huntington, Middlefield, Plainfield, Westhampton, Williamsburg and Worthington. In recent years its small business assistance program has expanded to serve 20 Hilltowns. Hilltown CDC’s four major program areas are affordable housing, small business assistance, social services and community development/planning. Hilltown CDC also administers a regional grant program that secures federal grant funds from the Department of Housing and Urban Development to ensure housing and services are provided to the homeless through a Continuum of Care (CoC) model which serves Hampshire, Franklin and Berkshire Counties.

Hilltown CDC works with the community to identify and secure financial resources to serve the community development needs of the region. In Fiscal Year 2014, Hilltown CDC helped the hilltown region care for the elderly, provided safe affordable housing to seniors and low income families, improved many hilltown homes and began initiatives that support local agriculture such as the Keep Farming initiative and the formation of a Transportation committee looking at the transportation needs of the hilltown region.

Social Services: Hilltown CDC’s **Hilltown Elder Network (HEN)** Program delivered in-home caregiving assistance (primarily chore and transportation assistance) to low-income Hilltown elders at no cost to the participants. HEN staff provided transportation for medical visits and other purposes, including snow removal. CDBG funding was awarded in 2013 allowing Hilltown CDC to provide CDBG funded HEN services. This grant allowed these services to be delivered through calendar year 2014.

The following social service programs provided assistance to residents in the hilltowns:

- **The Health Outreach Program for Elders (HOPE)**, administered by Hilltown Community Health Centers (HCHC), provided free in-home nursing care and podiatric services to homebound elders.
- **The Hilltown Food Pantry** distributed food to hilltown individuals. The Pantry is administered by the Northampton Survival Center at the Goshen Town Hall.

- **Families Together**, another HCHC program, offered training and peer support activities focused on family issues such as parenting, family dynamics, and family health education hilltown households.
- **Child Care Subsidies**, hilltown families were provided subsidies through this program to assist them with child care expenses.

Economic Development/Small Business Assistance:

- Provided individualized business consulting and/or training to hilltown businesses, ranging from one hour to 30 hours per business.
- Published the 2014 Hilltown Business Directory, distributed to 13,000 hilltown households in 22 towns, with contact information and descriptions of 308 hilltown businesses in 84 categories. The Directory is also on-line at www.hilltowncdc.org.

Affordable Housing: We actively pursue opportunities to preserve and create affordable housing to meet the needs of low and moderate income Hilltown residents.

- **Westhampton Woods Senior Housing:** Hilltown CDC completed Phase II of Westhampton Woods Senior Housing expanding the development from 7 apartments to 15 apartments. Construction was completed in December 2013 and tenants moved in for the new-year.
- **Rental Housing:** Hilltown CDC began renovating 24 units of scattered affordable rental housing in Williamsburg, Westhampton and Chesterfield in December of 2014 and is making significant improvements to all existing properties in 2015. This includes the acquisition of a new property in Haydenville. Hilltown CDC has hired a local contractor to complete this project in 2015.
- **New Project Development:** Hilltown CDC is working with the Town of Goshen and its Senior Housing Committee to purchase a piece of land in Goshen to build senior housing. Hilltown CDC applied for and was awarded \$80,000 in CPA funds in Goshen to acquire this land, obtain permitting and apply for permanent financing of the development.

Housing Rehabilitation Program: This program provides zero percent interest, deferred-payment loans to income eligible homeowners for use in making a wide variety of repairs to their homes, including roofs, septic systems, electrical, plumbing, and heating. In addition, the program provides a source of steady year round employment for area contractors. In FY 2014 HCDC:

- Hilltown CDC rehabilitated 20 homes in the Towns of Williamsburg, Cummington, Chesterfield, Westhampton and Plainfield.
- In 2014 Hilltown CDC received additional CDBG reserve funds to do rehabilitation to homes in Worthington, Peru and Goshen.

Community Planning: We also work closely with municipalities and community groups in our service area to plan for, raise funds for and/or manage a range of projects. During 2014 HCDC:

- Hilltown CDC assisted the Town of Goshen in obtaining Green Communities designation resulting in a grant of \$141,400
- Hilltown CDC received a USDA grant to start a Keep Farming program in the Hilltowns working with local farmers and buyers.

Please visit www.hilltowncdc.org for more information.

Respectfully submitted,

Dave Christopolis,
Executive Director
Hilltown Community
Development Corporation

Hampshire Council Of Governments

Annual Report for Fiscal Year 2014

The Hampshire Council of Governments (Council) is a membership based organization that solves common challenges through regional solutions while retaining local control over local affairs. The combined dues for the Council of Governments in Fiscal Year 2014 were \$52,255.85. The dues collected help support Council programs and services. It is the continued goal of the Council to increase revenues from a variety of sources to offset the assessment and to expand services.

For every dollar spent on Council programs, participating western Massachusetts communities receive at least three dollars back in taxpayer savings and value. All of our programs and services are designed to save taxpayer money, keep investments local, and contribute to a healthy, sustainable environment. All revenue generated is reinvested back into local communities.

Administration

The Council began a campaign to address significant areas of deterioration of the structural integrity of the historic Courthouse. The cost to restore the Courthouse is in excess of \$3.7 million. The Council approached local Community Preservation Act Committees requesting financial support. The Council was pleased and honored that the City of Northampton and Town of Goshen awarded the Council funds to help towards improving the safety and historical integrity of Old Courthouse. State and federal funding sources will also be identified because the building is owned by the “inhabitants of Hampshire County” and is our shared historic legacy.

Electricity Department

Hampshire Power is the only local electricity supplier with a non-profit mission to save you money and keep electricity dollars in the local economy. Achievements in FY 2014:

- In conjunction with our Hampshire Solar program, signed 5-year electricity supply agreements with several local municipalities.
- Responded to the changing electricity market characterized by high price volatility and extremely high winter electricity pricing by transitioning from Real-Time to Fixed-Price electricity contracts that offer long term rates designed to be below the default utility price.
- Initiated an outreach campaign to educate customers about the changing electricity market.
- Put in place the mechanisms and infrastructure necessary to offer fixed-price electricity contracts and to serve large loads.

- Marketed to a broad base of customers within western Massachusetts as well as in central and eastern Massachusetts.
- Was awarded the winning bid to serve the Municipal/Community Choice Aggregation of Lancaster.
- Attended the 37th New England Governors & Eastern Canadian Premiers Conference which focuses on energy issues and clean energy goals for the region, which resulted in a community solar initiative in partnership with MassDOT.
- Explored options for offering green power to its customers.

Community Choice Aggregation is a program for residential and business customers designed to bring choice, control, and cost savings to the electricity market. As of June 2014, thirty-five towns and cities are working to use their buying power to enhance the savings opportunities. (As of December 2014, 43 municipalities were included, with others expected to join in 2015.) The program is expecting full state approval shortly.

Residents of additional communities are already seeing the benefits as Hampshire Power serves residents and businesses with lower prices.

Municipal Services

Hampshire Purchasing Cooperative

The Cooperative is celebrating its 33rd year serving western Massachusetts' communities and school districts. The program coordinates and administers a formal bidding process on behalf of Council departments, municipalities, school districts, human service agencies, and miscellaneous governmental entities throughout the Berkshire, Franklin, Hampden, and Hampshire County region. Buying in bulk generates added savings over lone bidding efforts while complying with state procurement statutes and eliminating duplication of administrative work. The total purchasing volume for goods and services for Fiscal Year 2014 was \$6,598,627.54 with an estimated savings of \$750,732.36 for participating communities.

Hampshire IT

The Council operates a professional, affordable, and comprehensive IT service tailored to municipalities and school districts by partnering with Paragus, Strategic IT. The program has experienced growth over the past year and continues to add new towns. The more towns join the contract, the lower the hourly rate for everyone participating in the program.

Regional Municipal Accounting and Bookkeeping

Recognizing that towns have experienced a decline in available and qualified town accountants, the Council established a professional accounting and bookkeeping service. In Fiscal Year 2014 the Council provided accounting

services for the Towns of Chesterfield, Goshen, Granby and Westhampton as well as for not-for-profits including WiredWest, Springfield Materials Recycling Facility, Hilltown Resource Management Cooperative, Northampton Business Improvement District, and New Century Theatre.

Healthy Hampshire/Mass in Motion Grant

The Council was awarded a multi-year grant from the Massachusetts Department of Public Health to create Healthy Hampshire (HH) and we have been working through municipal and community leaders to effect changes to community policies and systems that have been shown to have a measurable impact on health. Goals of Healthy Hampshire include:

- Improve nutritional quality of school meals and snacks
- Increase the number of students walking and biking to school
- Increase the number of healthy options available to consumers in small retail outlets
- Create healthy design standards for municipalities to follow when considering any new development or retrofits

Hampshire County Group Insurance Trust (HCGIT)

The Trust has once again held their costs down with no premium increases for the 2014 Insurance Year. The Hampshire Councilors serve as the trustees of the Hampshire County Group Insurance Trust, a cooperative effort to provide health and life insurance with excellent benefits at competitive rates. An Insurance Advisory Committee, made up of representatives of all participating units, meets regularly to discuss problems and possible solutions and to explore new ideas. The Trust manages a self-funded group of health insurance products.

In the Insurance Year 2014 (April 1, 2013, to March 31, 2014), the collective premium for the Trust was approximately \$48 million. Through the efforts and expertise of the Trust management, the volume of participation in the program, and the participation of the town representatives on the Advisory Board, the Insurance Trust is successful at managing costs while providing excellent health benefits.

Wellness Initiative Program

The Wellness Initiative is a worksite wellness program promoting healthier choices and behaviors among employees covered by the HCGIT. Utilizing the health risk data from insurance claims as well as needs and interest surveys from employees to develop health and health promotion programs.

This year more than 20 Worksite Wellness Mini grants were awarded to fund Wellness Teams helping to develop and implement wellness programs. These grants allow employees to develop evidence based programs to address the risks of employees where they work.

A few of the many programs supported by the Wellness Initiative included:

- Spring and Fall Challenges – over 400 employees participated in these online physical fitness challenges by walking, biking, and running. They logged thousands of hours, steps and miles.
- Health Screenings – conducted at worksites to help employees know and understand their biometric numbers and make healthier choices.
- Ahealthyme – an online health and wellness portal launched this year in collaboration with BCBS to help subscribers take greater control of their health using personal health assessments, and online workshops to track their progress.
- Colonoscopy Promotion – as a result of our multiyear promotion beginning in April 2011 to encourage subscribers to have a colonoscopy the Trust has gone from 51% participation in this screening to nearly 75% reducing colorectal cancer among our members.
- Ergonomic assessments – help employees adapt their workstations to improve their posture and health.
- Sleep workshops – while we understand the importance of sleep, many people have trouble sleeping. Dr. Siegfried Haug helps employees understand and implement behaviors to improve their sleep.

Sustainability Department

The mission of the Sustainability Department is to promote green energy development and energy conservation projects throughout Western Massachusetts. The Council seeks to strengthen local economies through resource conservation, increased efficiency, and by keeping renewable energy monies in the region. In Fiscal Year 2014, the Sustainability Department has:

- Expanded the Solar Renewable Energy Credit (SREC) brokering program to 214 clients and 1,874 kW of capacity under contract.
- As part of the Green Communities Project, assisted the Town of Middlefield in the installation of new heating systems at the Highway Garage and Fire Station and prepared bids for new windows and doors at the Highway Garage.
- Worked closely with Hampshire Power to create and offer a financially viable solar net metering option for Hampshire Power member municipalities.
- Explored the possibility of locating a Community Solar Array in which residents can buy in access to the array.
- Provided consulting services on the development of a 950kW array in Central Massachusetts.
- Managed the 850 kW Wilbraham Landfill Solar Array project.

- Provided consulting services to the Massachusetts Higher Education Consortium to develop regional bids for household hazardous waste management and collection on college campuses.
- Established protocol for SREC II program.
- Will broker approximately 1,400 SREC's at the DOER July 2014 auction.

Retired and Senior Volunteer Program (RSVP)

RSVP of Hampshire & Franklin Counties is the Council's community service program that mobilizes adults age 55+ to meet community needs by recruiting, placing, and supporting volunteers in a diverse array of service opportunities at local non-profit and public agencies. The program benefits the senior population by keeping them active and engaged, and benefits our region by bringing these volunteers' dedication, wisdom, and expertise to bear on our communities' most pressing needs.

- During Fiscal Year 2014, 638 RSVP volunteers gave more than 101,000 hours of service to our communities, equaling a contribution of more than \$2.7 million.
- RSVP volunteers serve at senior centers, hospitals, nonprofits, schools, libraries, after school programs, and survival centers in towns across the two counties.

The following are some examples of the impact RSVP volunteers are having on our communities:

- Through RSVP's Osteoporosis Exercise Program, 65 volunteers led weekly strength training classes for more than 600 seniors
- 227 volunteers increased the capacity of nonprofits to serve the needs of our community through fundraising and program support.
- 140 volunteers increased food security in our region through service at food banks, survival centers, and senior meal programs.
- 267 volunteers improved the quality of life for more than 13,000 seniors by leading activities and providing information at senior centers.

The Tobacco Free Community Partnership (TFCP)

The Hampshire and Franklin County Tobacco Free Community Partnership (TFCP) supports communities' efforts to lower smoking prevalence and exposure to secondhand smoke by enhancing state and local tobacco control efforts, exposing tobacco industry tactics, mobilizing the community to support and adopt evidence-based policies, and changing social norms. Funded by the Massachusetts Cessation and Prevention program, TFCP serves as a resource for local coalitions, health and human service agencies, municipalities, and workplaces on tobacco intervention efforts.

The programs successes include:

- Passed updated tobacco regulations in three Hampshire County towns that prohibit the sale of tobacco in health care institutions (including pharmacies), restrict the sale of single cheap cigars, ban the sale of blunt wraps, and limit youth access to nicotine delivery products like e-cigarettes.
- A strong presence in creating Smoke Free Environments. In addition to efforts that resulted in the Yankee Candle Company implementing a tobacco free property policy at their flagship store, distribution center and corporate headquarters, Yankee Hill apartments (Easthampton) and the Ware Housing Authority have also adopted a smoke free policy within their housing developments. These policies eliminate the risk of secondhand smoke exposure.
- Individual presentations were made at over 16 community based organization regarding Other Tobacco Products (OTP) and smoking cessation and smoke free housing policy. These presentations were frequently addressed to family support staff within the organizations.

For further information on Council programs, expenses, and revenues, please contact the Administrative Office at 413-584-1300 ext. 2. You may also visit the Council website at www.hampshirecog.org, FB, and Twitter.

Hilltown Resource Management Cooperative

Annual Report for fiscal FY 2014

The Hilltown Resource Management Cooperative (HRMC) was created 26 years ago by a group of dedicated volunteers who had the vision to seek a regional solution to help small towns with volunteer local boards attain sustainability and environmental objectives.

The member Towns that comprise the HRMC includes: Ashfield, Chesterfield, Cummington, Goshen, Huntington, Middlefield, Plainfield, Westhampton, Williamsburg, and Worthington. Each Town appoints two representatives to serve on the HRMC Board. Board Officers for FY14 included: Joe Kearns, Chair (from Middlefield); Adam Leach, Vice Chair (from Worthington); and, Tom Martin, Treasurer (from Westhampton). Eric Weiss, HRMC Administrator has been managing and operating the HRMC as a half-time contractor since its inception. In June, Eric announced that he would be leaving the helm of the HRMC to serve as the Executive Director of the MHEC.

The HRMC has been providing guidance to its member towns on recycling, municipal waste disposal hauling and disposal, and compliance assistance and sustainability services. In fiscal year 2013 those services included:

- Monitoring of Municipal Recycling Facility (MRF) program hauling
- Monitoring of Municipal Solid Waste Hauling and Disposal
- Negotiating a new MRF contract with DEP and Waste Management
- Sponsoring an annual Household Hazardous Waste Collection event
- Program management of Transfer Station Recyclables including collection, hauling and recycling of tires, electronic waste, universal waste (i.e. fluorescent lights, compact fluorescent lights, ballasts, and non-alkaline batteries), and Freon removal from white goods (appliances)
- Transfer Station operations monitoring
- Preparing bids and contracts for transfer station equipment
- Preparing bids for environmental monitoring activities

For the past 2½ years, the HRMC has managed a regional recycling and hauling contract for its 10 member communities.

In addition to the managing the day to day operations of the HRMC, the HRMC Administrator also serves as a representative on behalf of its member Towns to the MRF Municipal Advisory Board; provides technical assistance on DEP and compliance related issues, advocates with local, regional, and State officials, and researches and drafts grant submittals.

In FY13, the Massachusetts Department of Environmental Protection (DEP) announced their Small-Scale Initiative Grants under the annual Sustainable Materials Recovery Program (SMRP). Every HRMC town received a grant award of \$500. Collectively, the grant awards totaled \$5,000, which was pooled to acquire a new roll-off container for regional rotation. In addition, in the Municipal Advisory Board provided free blue recycling bins that were distributed to the member Towns.

The HRMC has an annual assessment which is approved by each Town at their annual Town meeting. The annual Assessment Budget is based on tonnage and population. In FY13 the combined assessment for all ten towns was \$39,487.56. After two years of budget reductions, the Assessment Budget has remained level funded for the past 4 years. The HRMC also receives grant and recycling revenues to supplement its budget and the program efforts on behalf of its member communities. Many of the program costs are passed through the HRMC to have oversight of contracts and enable the HRMC administrator to have review and oversight on program operations.

In FY 2013, the HRMC member Towns collectively diverted 1,042.61 tons of recyclable materials (paper, and bottles/cans) to the MRF and earned \$20,363.35 in recycling revenue.

Why Recycle?

- Recycling saves energy, which helps slow climate change
- Recycling saves natural resources and wildlife habitat
- Recycling provides nearly 19,000 jobs in Massachusetts
- Recycling Saves Money by avoiding disposal and tipping fees

The HRMC looks forward to continuing to assist the member Towns during the upcoming year. If you have questions about HRMC programs, call us at 413-685-5498 or by email at hrrmc@hrrmc-ma.org.

Kathleen A. Casey

HRMC Administrator

WiredWest Report

July 1, 2013 – June 30, 2014

As the organization designated by its 42 member towns to bring broadband internet service to their citizens and businesses, WiredWest continued throughout the year working with those towns to assure that their voice is heard in deliberations about the last-mile project and that they play a substantive role in the development and operation of the network.

The most important issue as Fiscal Year 2014 began was the pending IT Bond Bill, which included \$40 million for last-mile broadband infrastructure. Members of the WiredWest Executive Committee testified before the House Committee on Bonding, Capital Expenditures and State Assets on September 18, and submitted about 300 letters in support of the legislation from citizens, businesses, Select Boards and other organizations. The committee reported the bill out favorably, which by the end of the fiscal year was on the verge of passage, with the last-mile allocation increased to \$50 million.

In September WiredWest retained a seasoned telecommunications executive on a one-year contingent fee consulting contract. His assignment was to assist WiredWest in continuing to develop its business plan, to evaluate potential sources of funding, and to foster relationships with the Massachusetts Broadband Institute (MBI), which was in the process of completing a middle-mile broadband network to serve community anchor institutions in the region and to provide interconnection points for a future last-mile network. WiredWest presented MBI a proposal on how they could partner on the last-mile.

The most likely source for federal funding appeared to be the low-cost Broadband Loan Program of the Rural Utilities Service at the U.S. Department of Agriculture. The Executive Committee developed a detailed project plan for completing the complex RUS application, but due to steep Congressional cuts to the program's budget, it did not prove to be a viable source of funds. In March WiredWest submitted an "Expression of Interest" to the Federal Communications Commission in regard to its new Connect America Fund. While WiredWest did not expect funding from the initial pool of money, it was valuable to become familiar with CAF with an eye toward a larger pool of money possibly available in the future.

WiredWest also explored whether it might attract capital from the private sector. It also evaluated how it might utilize its authority under state law as a Municipal Lighting Plant Cooperative to issue bonds, and preliminarily discussed

what financial stake its member towns might have in the project. In the spring WiredWest conducted a series of informational meetings for local officials in its member towns.

To complement the professional and business capabilities of its Executive Committee, WiredWest added a member who is a professional planner and manager of major construction projects, and a Selectman.

In June WiredWest drafted a letter it asked each Select Board in its member towns to send to MBI. The letter noted that people in its member towns are “deeply frustrated by the continuing lack of adequate internet service.” It expressed continuing support for “WiredWest as our designated organization to implement and operate a regional last-mile fiber broadband network.” And it urged MBI “to work closely with WiredWest so that upon passage of the bond bill, construction of the network can begin as expeditiously as possible.”
